Replacement and Annotated Sheets are attached to label Fig . 1 Prior Art, as requested.

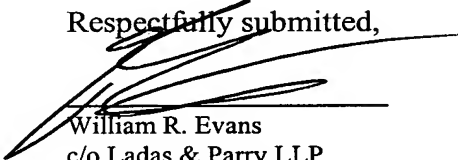

REMARKS

The allowability of claims 1-6 upon avoidance of rejections under 35 USC 112, second paragraph, is acknowledged appreciatively and accepted. Thus, even though the amendments made in claims 1-6 are in response to statutory requirements, they do not narrow or otherwise change the originally allowable subject matter and, therefore, should not invoke any Festo-like limitations.

However, the objection to the latch assembly in claim 5 is traversed on the basis of the latch assembly in original and present claim 1, and the objection to "heavy" relates only to the preamble.

Reconsideration and allowance are, therefore, requested.

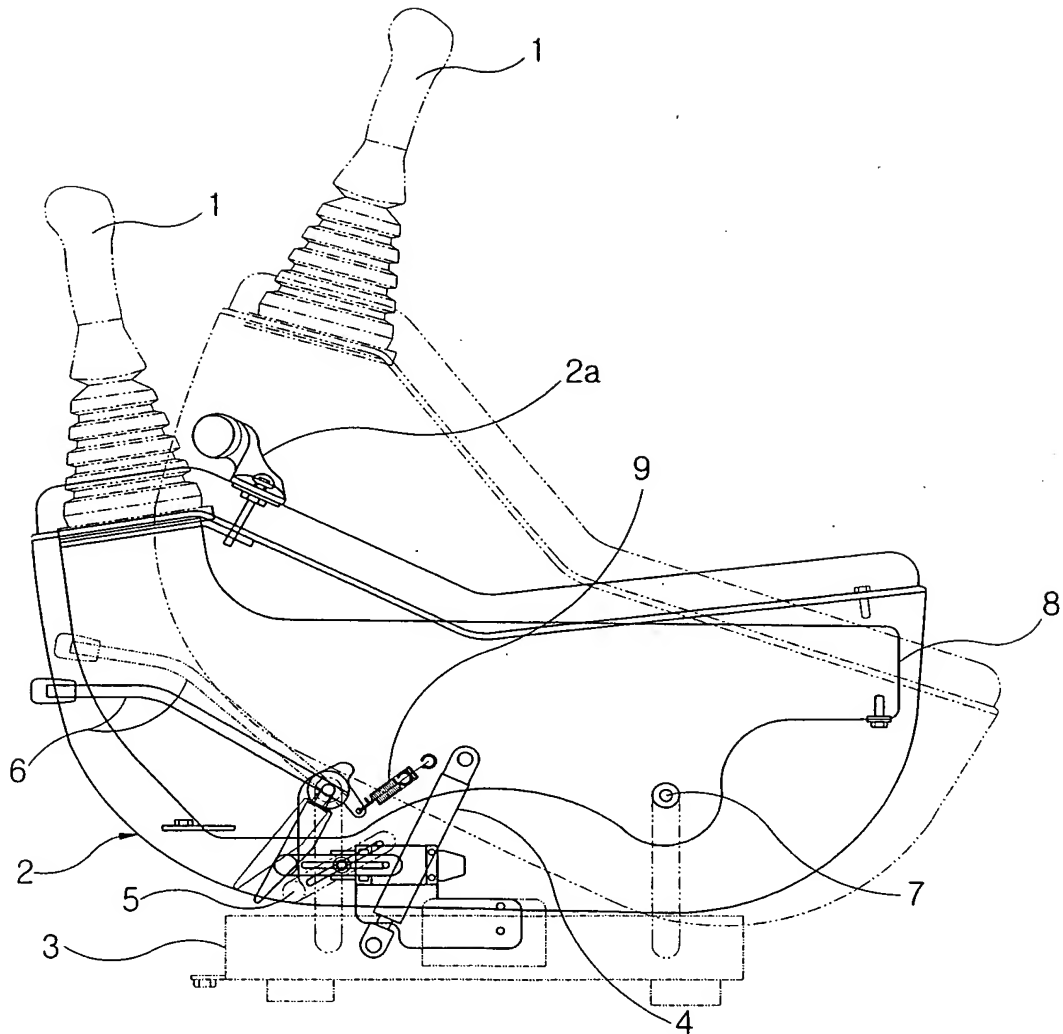

Respectfully submitted,
